## Microsoft Cloud — AI you can trust

Your data is **your** data.

Your data is **not** used to train the OpenAI foundation models without permission.

Your data is **protected** by the most comprehensive enterprise compliance and security controls.

# Microsoft 365 Copilot

Cross-app experience

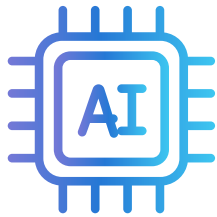

# Let's Start With Bing Chat & Bing Chat Enterprise

# Bing Chat / Bing Chat Enterprise

## Employees want AI-powered chat but companies have data security and privacy concerns

92% of technical professionals and business decision makers say they have used or tried an AI tool or service

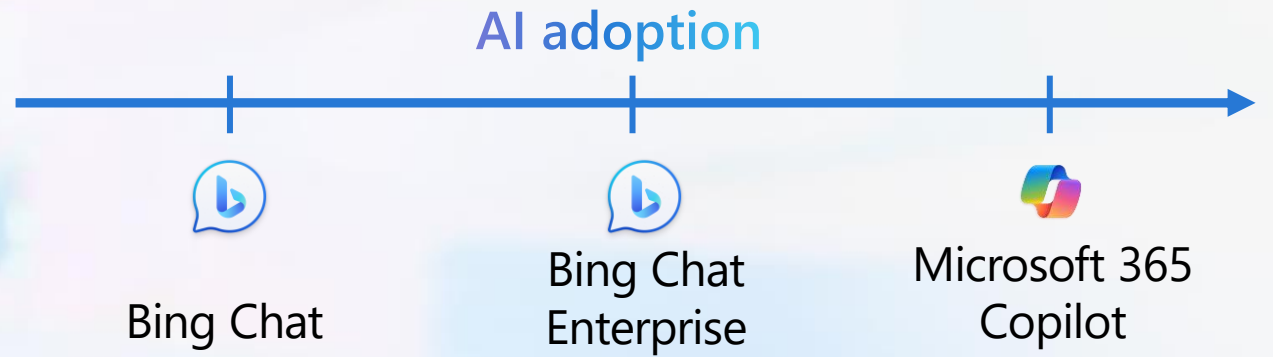

Employees using AI-powered chat through public web services are putting **corporate data at risk**

Some large corporations **discouraged employees from using AI tools** because of data leakage risks

# Understanding the AI Options

	Personal	Work	Work
GPT Large Language Model	✓	✓	✓
AI-Powered Web Search, Answers & Content Generation	✓	✓	✓
Commercial Data Protection		✓	✓
Microsoft 365 Enterprise Security, Compliance & Privacy			✓
Microsoft 365 Graph (content & context)			✓
Microsoft 365 Apps			✓

# Your business data is protected

Bing Chat Enterprise is AI-powered web chat with **commercial data protection**

## Chat data is not saved

Chat prompts and responses are discarded. No one at Microsoft can view customer data.

## No eyes-on access

No one can see your data.

## Data is not used to train the model

Chat data is not used to train the large language models used by AI.

# Availability

## No additional cost\*

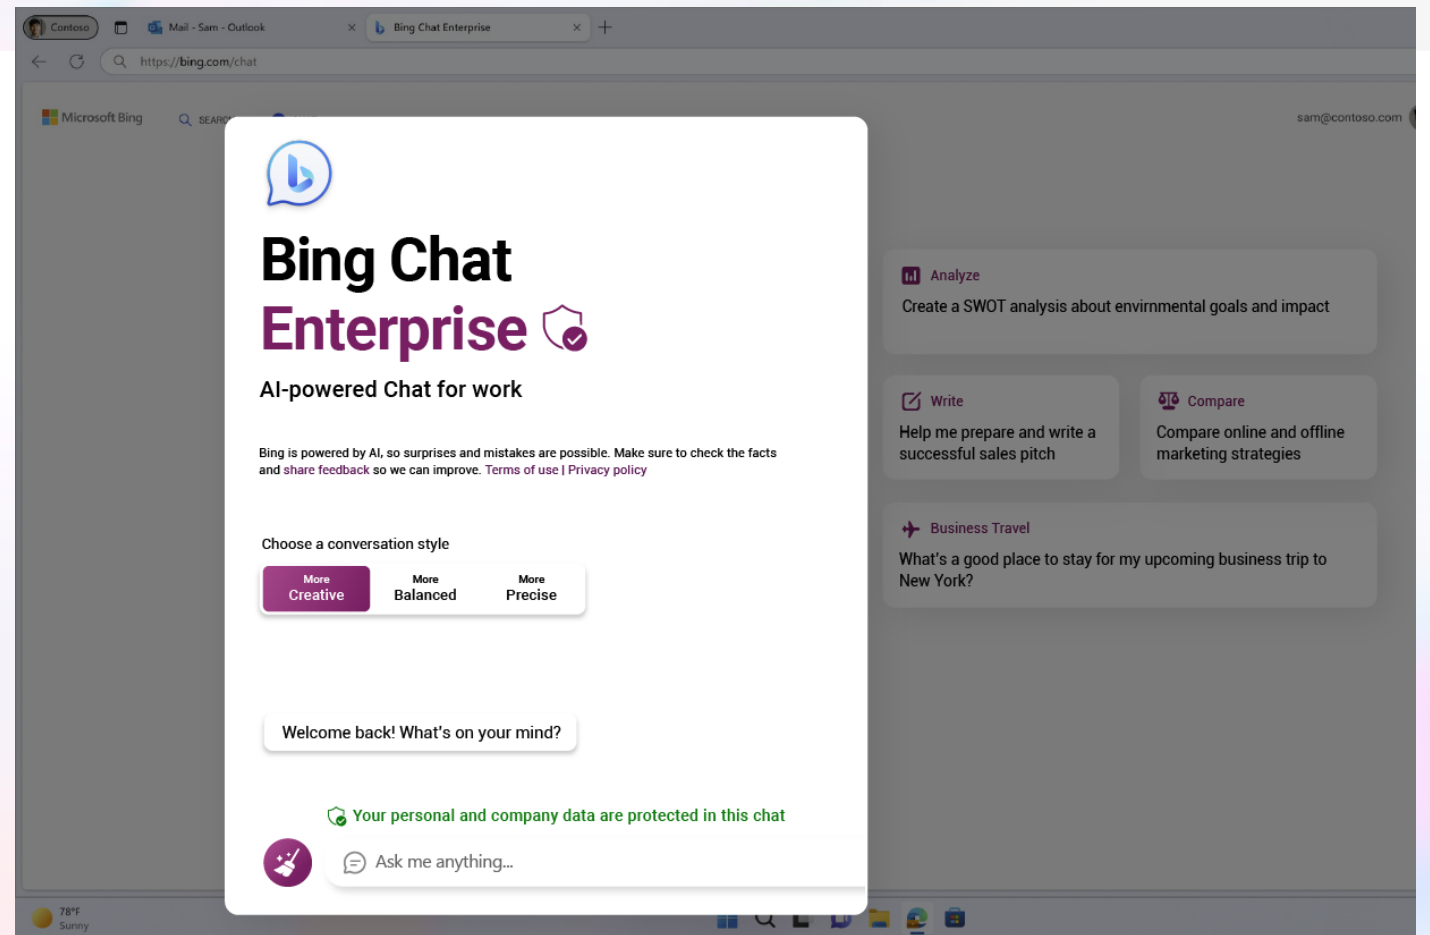

- Microsoft 365 E3, E5
- Microsoft 365 A3, A5 (faculty only)
- Business Standard
- Business Premium

## Future standalone offering

- \$5 per user, per month

## Users signed into work accounts can access via

- Bing.com/chat
- Microsoft Edge sidebar
- Windows Copilot\*\*

\*Sovereign government clouds are not included

\*\*Coming in the future to Windows Copilot

# How can I use Bing Chat Enterprise?

## Write something new

You've a brilliant idea you want to share with the world. But you don't know how to put it into words. Don't worry, just tell Bing what you want to write and how you want to write it. Whethe...

## Comparison made easy

You don't have to waste time browsing different sites or typing multiple questions. Just say what you want to compare and how detailed you want the comparison to be. Bing will do the...

## Get summaries

Get the gist of something without reading everything. Just tell Bing what you want to know a summary of, and it will give you a concise summary of the main points – whether it's a book, a tv...

## Create an image directly in Bing Chat

Create images directly from your words. You just type what you want to see, and Bing Chat will generate it for you. You can also ask Bing Chat to modify or improve the image as you...

## Ask follow up questions

Each conversation you have in Bing Chat keeps the context of your initial questions. This allows you to clarify past questions and get more information without starting over.

## Change the tone or style of what you write

Not only can Bing help you write, but it can also spice up your writing with different tones and styles. Just tell Bing what you want and watch the magic happen. For example, you can ask Bin...

# A Deeper Dive into Microsoft 365 Copilot

# Microsoft 365 Copilot

Grounded in  
**your business data**

Microsoft 365 Copilot has real-time access to both your *content and context* in the Microsoft Graph.

Comprehensive  
**security, compliance, & privacy**

Copilot inherits your security, compliance, and privacy policies set up in Microsoft 365.

Architected to protect  
**data**

Your data never leaves its secure partition, and it is never used for training purposes.

Integrated into the  
**apps you use every day**

Word, Excel, PowerPoint, Outlook, Teams, and more.

Individual user & admin  
**always in control**

User decide what to use, modify, or discard.

Designed to  
**learn new skills**

As Copilot learns about processes, it can perform more sophisticated tasks and queries.

# Microsoft 365 Copilot

# Copilot Consultation

[Contact us for a free consultation](#)

Email us to opt-in for Microsoft Copilot updates (sales@biggreenit.com)

The screenshot shows the BigGreen IT website header with the logo, phone number (916) 787-3223, and navigation menu including Cloud Services, Solutions, About Us, Knowledge Center, Client Portal, and Contact Us. Below the header is a blue banner with the text "30-minute Microsoft Cloud Consultation" and a photo of a group of people. The main content area features a text block on the left and a form on the right.

**Sometimes 30 minutes is all it takes to get the answers you need.** Gather up your specific questions and discussion topics and we will connect you with one of our Microsoft experts for a 30-minute 1:1 call.

During this call, the floor is yours. You ask your questions, and we will provide you with answers.

**Let's sync calendars. Please fill out the form to the right and we will get back with you right away to schedule a meeting.**

Please provide us with a brief description of what you would like to discuss so we can get the right Microsoft expert on the call.
